Case Study

Our Client:

This is a home improvement company that provides quality roof installations and repairs in Norwich, Connecticut and the surrounding areas.

Goal:

Generate high-quality phone calls for their home improvement business.

Project Duration:

1.5 Years (Ongoing)

Problem Statement:

The company needed new business and quality phone calls for their skilled workforce. They had a hard time generating phone calls and leads.

Strategy (Overview)

The client wanted to grow their brand and reputation by showcasing their work on their website. The team decided to set up a simple search campaign optimized for each keyword.

The target audience was based on income and interests:				
<div>Target Audience</div> <div>Custom Audience</div>	<div>Interest:</div> <div>In the market for events</div>	<div>Language:</div> <div>English</div>	<div>Age group:</div> <div>35 - 65+</div>	<div>Income class:</div> <div>Top 41% and up</div>

This strategy did two things, it targeted people who showed interest in home improvement and it targeted people who were in the local area.

Best Performing Ad

- The team used search ads which used keywords to match the user's interests.
- Each campaign had an ad pointing to the client's specific landing page.
- This was a very healthy campaign with a very healthy ad impression size of 15k+ views.
- After generating quality link clicks and phone calls, we did not create a similar campaign for remarketing.
